2. Confidential Missing Air Crew Report No. 7832, dated 15 August 1944 identifies the above-named persons as the crew of B-24 type aircraft No. 44-40665 which departed 14 August 1944 from Saipan Island on an operational mission to Iwo Jima Island. Natural Conditions are described as "Ceiling and visibility unlimited." The aircraft was seen to crash about twenty miles southwest of Minami Rock at about 1148 hours and was lost as a result of enemy aircraft. The report states that parachutes were seen to come from the aircraft.

3. Attached to the report is a joint statement signed by First Lieutenants Robert B. Kelly, 065042, and LeRoy J. Conn, 0670014, and Second Lieutenant Robert M. Anderson, 0631974, who are described as the persons who are believed to have last knowledge of the missing aircraft. The statement reads:

"At 0149, 14 August 1944, GCT, at a position approximately..."
20 miles SW of Minami Rock, and airplane was observed to be hit in the left wing and No. 2 engine by fire from enemy aircraft. The whole left side of the airplane caught fire immediately. The pilot of the burning airplane called 1st Lt Robert E. Kelly, the Flight Leader, on the radio and said that he was hit, and going down. The airplane was diving fast in a large spiral turn. Four parachutes were observed. The airplane hit the water and exploded on contact."

4. A report from the 819th Bombardment Squadron (H), dated 15 August 1944, subject: Relief from Accountability for Registered Document (file AG 311.5 (15 Aug 44), to The Adjutant General, states in part:

"1. One B-24 of this organization, number 44-40565, piloted by John W. Rank, 1st Sgt., A.C., 0-469940, during mission H-312, over Iwo Jima island in the Bonin Group, was seen to burst into flame and crash at sea while under attack by enemy fighters at approximately 0150Z, 14 August 1944.

"2. * * * Other crews report seeing from two to six men bailing out; the plane exploded on contact and sank immediately twenty miles south of Minami Rock on Iwo Jima."

5. Iwo Jima Island was under enemy control until early February of this year when American armed forces landed on the island.

6. Minami Rock is a small island about 28 miles to the south of Iwo Jima Island.

7. An examination of the files of these persons in Casualty Branch, Officers' Branch and Enlisted Branch, AGO, and of the index in Prisoner of War Information Bureau, PMGO, does not reveal any further information relevant to this review.

II. CONCLUSIONS

1. The subject officers and enlisted men constituted the crew of B-24 type aircraft No. 44-40565 which on 14 August 1944 participated in a mission to Iwo Jima Island, Bonin Islands. While under attack by enemy fighters, subject airplane was seen to be hit. It burst into flames and crashed at sea about twenty miles south of Minami Rock, which is a small island approximately 28 miles south of Iwo Jima Island. From two to six parachutes were reported to come from the aircraft.
S. R. & D. No. 3853

2. A possibility exists that the persons who were seen to parachute, plus others who may have subsequently left the aircraft, may have survived and were rescued by the Japanese who controlled that area until the early part of this year.

3. The fact that they have not been reported by the Japanese Government does not preclude the possibility that they may be prisoners of war, inasmuch as that Government has, in many instances, failed to report prisoners of war within one year of the date of their capture.

4. In view of the foregoing facts and circumstances, it is concluded that the persons whose status is herein considered may reasonably be presumed to be living.

III.- RECOMMENDATION

It is recommended that the persons named in Part I, paragraph 1, of this review be continued in a missing in action status, as of 15 August 1945, under the provisions of section 5 of the Missing Persons Act.

PART I - CASUALTY DATA

The Air Corps personnel listed below were recorded as crew members of aircraft B-24J, serial number 44-40065, 316th Bombardment Squadron, 30th Bombardment Group, reported to have taken off from Saipan Island, Marianas Islands for combat strike over Iwo Jima Island, Volcano Islands on 14 August 1944. At a position approximately 20 miles southwest of Minami Rock, Iwo Jima, an airplane was observed burning and diving fast in a large spiral turn. Four parachutes were observed. The airplane hit the water and exploded on contact.

PART II - CASE EVIDENCE

1. Organizational Missing Air Crew Report No. 7832 dated 15 August 1944 with the attached statements is attached.

2. Available OMLIC Forms 371 on subject listed crew members are attached to substantiate the circumstances of death.

COPY
PART III - DISCUSSION

1. Subject aircraft reported to have taken off from Saipan Island for combat strike on Iwo Jima Island. NACR gives 1143 DLT hours, 14 August 1944 and attached statement say at 0149 GMT hours, 14 August 1944 at a position approximately 20 miles southwest of Mina Rock, an airplane was observed to be hit in the left wing and number two engine by fire from enemy aircraft. The whole left side of the airplane caught fire immediately. The pilot of the burning airplane called 1st Lt. Robert B. Kelly, the Flight Leader, on the radio and said that he was hit and going down. Four parachutes were observed. The airplane hit the water and exploded on contact. No available reports of rescue. It can be presumed that the four men who were observed to have bailed out were drowned and the other crew members were killed in the crash and lost at sea on 14 August 1944, approximately 20 miles northwest of Mina Rock, Iwo Jima Island, Volcano Island. The circumstances of loss of the aircraft and crew members were such as to preclude any possibility of recovery at the time of the plane crash.

2. The Search & Recovery Teams operating on the islands and inlying island areas of this command have not recovered any remains that could be identified as subject crew members.

3. All available records have been checked to further the identity of unknown remains buried in cemeteries in this Command with those of subject crew members. None of the records compare favorably enough to warrant identity either by dental chart or circumstances of death.

4. Records of burials indicate that the remains of subject crew members are not among those listed as KIA's in United States Military Cemeteries of this Command.

PART IV - FINDINGS

After review of the facts and information contained in Part II and III, above, it is found that aircraft B-24J, serial number 44-40665, crashed into the sea as a result of enemy aircraft and subject crew members were drowned or killed in the crash and lost at sea.
PART V - RECOMMENDATION

Based upon the findings shown in Part IV, above, and the information contained in Parts I, II and III of this review, it is recommended that the remains of the Air Corps personnel listed below be considered "Non-recoverable, Lost at Sea" and that all records relative to search and recovery of the remains be closed.

REMARKS:
At 01:19, 14 August 1944, COTM at a position approximately 20 miles S/W of Hinam Island, an airplane was observed to be hit in the left wing and number two engine by fire from enemy aircraft. The whole left side of the airplane caught fire immediately. The pilot of the burning airplane called 1st Lt. Robert B. Kelly, the Flight Leader, on the radio and said that he was hit and going down. The airplane was diving fast in a large spiral turn. Four parachutes were observed. The airplane hit the water and exploded on contact.

2. Under the provisions of Section 5, Public Law 490, 7 March 1942, as amended, a Finding of Death was issued in each case (SR&D No. 3852-A), showing the presumed date of death as 25 February 1946.

3. Missing Air Crew Report No. 7832, dated 15 August 1944 identifies the above-named persons as the crew of B-24 type aircraft No. 44-40665 which departed 14 August 1944 from Saipan Island on an operational mission to Iwo Jima Island. Natural conditions are described as "ceiling and visibility unlimited." The aircraft was seen to crash about twenty miles southwest of Minami Rock at about 1148 hours and was lost as a result of enemy aircraft. The report states that parachutes were seen to come from the aircraft.

4. Attached to the Crew Report is a joint statement signed by First Lieutenants Robert B. Kelly, 0665042, and LeRoy J. Conn, 0670014, and Second Lieutenant Robert K. Anderson, 0681974, who are described as the persons who are believed to have last knowledge of the missing aircraft. The statement reads:

"At 0149, 14 August 1944, GCT, at a position approximately 20 miles SW of Minami Rock, an airplane was observed to be hit in the left wing and No. 2 engine by fire from enemy aircraft. The whole left side of the airplane caught fire immediately. The pilot of the burning airplane called 1st Lt Robert B. Kelly, the Flight Leader, on the radio and said that he was hit, and going down. The airplane was diving fast in a large spiral turn. Four parachutes were observed. The airplane hit the water and exploded on contact."

5. A report from the 819th Bombardment Squadron (H), dated 15 August 1944, subject: Relief from Accountability for Registered Document (file: AG 311.5 (15 Aug 44)), to The Adjutant General, states in part:

"1. One B-24J of this organization, number 44-40665, piloted by John W. Rank, 1st Lt., A. C., O-349940, during mission H-312, over Iwo Jima island in the Bonin Group, was seen to burst into flame and crash at sea while under attack by enemy fighters at approximately 0150Z, 14 August 1944.

"2. *** Other crews report seeing from two to six men bailing out; the plane exploded on contact and sank immediately twenty miles south of Honem Rock on Iwo Jima."

6. Iwo Jima Island was under enemy control until early February of 1945, when American armed forces landed on the island.

7. Minami Rock is a small island about 28 miles to the south of Iwo Jima Island.

8. The subject officers and enlisted men constituted the crew of B-24 type aircraft No. 44-40665 which on 14 August 1944 participated in a mission to Iwo Jima Island, Bonin Islands. While under attack by enemy fighters, subject airplane was seen to be hit. It burst into flames and crashed at sea about twenty miles south of Minami Rock, which is a small island approximately 28 miles south of Iwo Jima Island. From two to six parachutes were reported to come from the aircraft.

9. In view of the elapsed period of time without any further information pertaining to subject persons, it appears that in all probability they are dead, either killed or drowned when their plane crashed in the water, due to enemy action, or having survived the crash, were captured and died of some unknown causes at a later date. A number of cases are available wherein missing personnel are known to have been captured by the enemy in that area and who were never reported as prisoners of war or heard from again. However, there are no known eyewitnesses to their actual fates, and since the known circumstances immediately preceding their disappearance are not conclusive of death, any final decision as to their status is contingent upon the finding of their remains or evidence made a matter of record by the enemy. However, as indicated above, a search of official burial records elicits the information that the Non-Recoverable Unit of the Quartermaster General's Office, has recommended that the remains of the above crew be declared non-recoverable. Nor has any evidence been received either before or after cessation of hostilities to indicate that subject persons were ever in the hands of the enemy.
10. In view of the foregoing, it is concluded that the information now of record in the Department of the Army does not warrant the issuance of official reports of death, under the provisions of Section 9, of the Missing Persons Act.

Mrs. Audrey S. Glenn
Heyworth, Illinois

Dear Mrs. Glenn:

The Army Effects Bureau has received some personal effects belonging to your husband, Lieutenant Edgar L. Glenn.

This property is being forwarded to you in one carton, and should reach you in the near future.

My action in transmitting the property does not, of itself, vest title in you. The items are forwarded in order that you may act as gratuitous bailee in caring for them pending the return of the owner, who has been reported missing in action. In the event he later is reported a casualty, and I sincerely hope he never is, it will be necessary that the property be turned over to the person or persons legally entitled to receive it.

When delivery has been made, I shall appreciate your acknowledging receipt by signing one copy of this letter in the space provided below, and returning it to this Bureau. For your convenience, there is inclosed an addressed envelope which needs no postage.

I regret the circumstances prompting this letter, and wish to express my hope for the safe return of your husband.

I am inclosing a check for $22.00, which represents funds belonging to your husband.

Yours very truly,

I. M. BRAINERD
